Summary

Well-versed in HTML, CSS, JavaScript, and jQuery. Current student at University of Denver coding bootcamp. By the end of the course I will have the knowledge and skills to be a full stack web developer. I'm currently employed full-time as a foreman for Gypsum Services. I've been employed with them for over 12 years.

EDUCATION

University of Denver, Denver — *Coding Bootcamp*

November 2018 - PRESENT

In this course I am learning the skills necessary in becoming a full stack web developer. So far I have become very well versed in the front end aspects of the field and am now learning the back-end.

Colorado School of Lutherie, Denver

November 2017 - December 2017

I learned the art of guitar building which has helped me in every aspect of my life. It take tremendous attention to detail and patience to make sure the job is done right.

EXPERIENCE

Gypsum Services, Denver — *Foreman*

June 2006 - PRESENT

I'm a construction foreman and have been with the company for over 12 years.
